Ruston Poole International opens new office in Germany

Ruston Poole International, the leading Life Sciences Executive Search group, is further strengthening its offering to continental Europe with a new office in Munich, headed by Erika von der Decken.

Erika, who is a German national, was previously Director of Operations and Human Resources for biotechnology company U3 Pharma AG where over her six years there she built up the human resource function and was ultimately involved in the recruitment and development of the senior management team.

She says: "I was myself a client of Ruston Poole, and was greatly impressed not only by their success in finding the right person every time, but also by their grasp of the market and the accessibility of senior consultants. So joining the company is an exciting challenge, that will allow me to take Ruston Poole's unique offering to more clients in the German speaking territories."

Paul Edwards, Chief Executive Officer of Ruston Poole International, comments: "We are delighted that Erika will be joining the company as this will further strengthen our consulting team. We believe that by establishing an office in Munich, we will be able to offer an even better service to our many clients in Germany, Switzerland and Austria.

"This investment illustrates our commitment to continental Europe where we already carry out over 50 per cent of our assignments. Erika's appointment is a natural next step to establish a permanent presence in the heart of Europe."
